WAEL QUBAISI

Khobar, KSA | WaelQubaisi@hotmail.com | LinkedIn | GitHub: Waelaaq

SUMMARY

Final-year Computer Science student, co-founder of a game studio, and software developer. I build web platforms and game systems, and I'm looking for an internship or COOP role to bring that into a professional setting.

EXPERIENCE

Thurayya Studio thurayyastudio.com | Dammam, KSA Jan 2025 – Present

Co-Founder & Game Programmer

- Co-founded a game studio and work as a game programmer on a small team.
- Collaborate with teammates across multiple projects using Git/GitHub workflows.
- Currently in active development on our debut game, working closely with designers, artists, and developers.

PROJECTS

Pexet Inc — Game 2025 – Present

- A game in active development featuring state management, game loop architecture, and modular OOP design for entities and assets.
- Started in Godot (GDScript) and migrated to Unity (C#) after about 8 months of development. *Stack: Unity, C# (previously Godot, GDScript)*

Iqraa Library — Multi-Vendor Bookstore Jun 2026

- A platform where multiple vendors can list and sell books, with separate inventory and transaction tracking per vendor.

  Stack: PHP, MySQL, JavaScript

Event Management System 2025

- Full-stack system for managing university events: handles registrations, user authentication, and role-based access for admins, students, and organizers.

  Stack: Django REST Framework, MySQL, React, Vite, TailwindCSS

ACHIEVEMENTS & VOLUNTEERING

Game Development Unit — IAU

Game Developer

- Built software and games for university events; recognized as Top Volunteer with 100+ service hours.

Thurayya Studio — Co-Founder

- Co-founded a game studio while maintaining a full academic course load.
